## Main benefits

- Easy subscription management
- Simplified billing and potential cost savings
- Transparent usage statistics
- Technical support
- Licensing advice and account management

## Declutter, refine and drive change

Microsoft for Startups is a great incubator. Now that your 1-year programme is coming to an end this is your chance to re-evaluate and consolidate your resources, so that you're in the strongest position to breakout on your own.

Our experienced technical experts and architects will work with you to assess your current software and services consumption and help you to pick out which warrant being rearchitected into your new platform. Together we'll ensure that you have everything that you need, working for you in the most efficient way.

**A seamless transition into the next stage of business growth.**
